

HENSCHEL TECHNOLOGIES

DOVER • DELAWARE • 24 YEARS STRONG

A \$175/hr IT evaluation. Free.

No pitch. No pressure. Just an honest look at your business technology — from a guy who's spent 24 years in the trenches.

Your IT shouldn't be a gamble.

Most small businesses treat it like one. Something breaks, you call somebody, you get a bill you didn't expect. Then it breaks again.

We're your IT department.

Monitoring, securing, backing up, answering the phone. One predictable monthly price — IT stops being something you worry about.

We build. We don't just bill.

Most IT companies make money when things break. Flat monthly plans mean we're motivated to *prevent* problems, not profit from them.

Here's my offer:

A free IT systems evaluation — the same work I bill at **\$175 an hour**. No pressure, no sales pitch. One conversation. Then you decide.
