THE HENSCHTEL WAY

Our culture, *in one promise.*

"Technology promised to work for you.
We're here to keep that promise."

♦ Plain dealing

One flat rate. No nickel-and-diming, no surprise invoices, no call-center scripts. You always know what things cost.

♦ Unbudging standards

The same hardened, verified standard for every client, every time. We don't bend it for anyone — that's the point.

♦ One team, your team

A team that knows your business by name. One throat to choke, one crew to trust — never a ticket queue stranger.

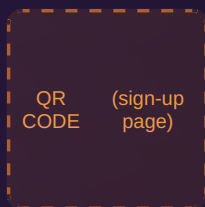

♦ We live what we sell

We run our own business on the same stack we put in yours. If we wouldn't trust it ourselves, we won't sell it.

A gift, mailed to you.

Click the code, sign up, and we'll **mail a gift** straight to your office. No purchase, no pitch — just a hello from your new neighbors in Delaware.

HENSCHTEL TECHNOLOGIES

THIS HALLOWEEN

Let's take the *spooky* out of IT problems.

Every business has IT horrors lurking. We hunt them down.

Ransomware & phishing ghosts

Lurking in your inbox, waiting for one wrong click. **We hunt them down** before they haunt you.

Tangled networks & Wi-Fi dead zones

Creepy corners where nothing connects. **We untangle it all** — coverage everywhere you work.

Backups that were never tested

The walking dead of IT — looks alive until you need it. **We verify every restore**, no nasty surprises.

Unpatched systems in the shadows

Outdated, exposed, and hoping nobody notices. **We drag them into the light** and lock them down.

No tricks, *just treats.*

Scan the code, sign up, and we'll mail a treat straight to your office. No purchase, no pitch — just a hello from your new neighbors.
