

HENSCHTEL TECHNOLOGIES

DOVER • DELAWARE
24 YEARS STRONG

Hello Delaware, *nice to meet you!*

We're your new neighbors in managed IT.

Who we are & what we do

We're a Delmarva-based team of IT professionals, and we do one thing: **keep your business running**. When your computers, network, and email just work — that's us, behind the scenes, making it happen.

Managed IT Services

Cybersecurity

Microsoft 365

Data Protection & Backup

Help Desk Support

New-Neighbor Gift

A **free IT Systems Evaluation** — the same work Louis bills at **\$175 an hour**. We check your network, security & backups and hand you the report. No strings attached.

A \$175/hr IT evaluation. Free.

No pitch. No pressure. Just an honest look at your business technology — from **Louis Henschel**, who's spent **24 years** in the trenches keeping businesses running.

Your IT shouldn't be a gamble.

Most small businesses treat it like one. Something breaks, you call somebody, you get a bill you didn't expect. Then it breaks again.

We're your IT department.

Monitoring, securing, backing up, answering the phone when your team has a problem. One predictable monthly price — and IT stops being something you worry about.

We build. We don't just bill.

Most IT companies make money when things break. Flat monthly plans mean we're motivated to *prevent* problems, not profit from them.

Here's what you get, free:

- **What's working & what isn't** — a plain-language walkthrough of your setup
- **Where you're exposed** — security gaps, backup gaps, single points of failure, mapped out
- **What it costs to fix** — real numbers, with us or without us
- **A straight answer** — if we're not the right fit, we'll tell you
