

🎃 HALLOWEEN 2026 🎃

HENSCHEL E-WASTE PRESENTS

IS YOUR IT CLOSET HAUNTED?

That old IT hardware clogging up your environment isn't just ugly — it's haunting everyone who opens the door.

SIGNS YOUR CLOSET IS POSSESSED

- 👻 CRT monitors from 2003 still stacked on the floor, watching you.
- 👻 The cable-spaghetti monster — a tangle so bad nobody dares unplug anything.
- 👻 Servers that hum but do nothing, glowing red for reasons lost to time.
- 👻 Floppy disks. Actual floppy disks. In 2026.
- 👻 A printer that jams more than it prints — pure evil.

We perform the exorcism. We simply come to you and haul the haunted hardware away. You get a serialized Excel inventory of everything collected — plus certificates of data destruction and disposition for every item. **Priced by weight, quoted up front. No tricks.**

BOOK YOUR EXORCISM
